EcoSavers® Draught Excluder

The EcoSavers® Draught Excluder is made from high quality EPDM flexible rubber material which combines durability with flexibility.

The E-profile is suitable for seams from 1-3 mm and the P-profile is suitable for 2-5mm seams.

Suitable for use with windows and doors as well.

This quality product comes in a box with 6 metres of material. Mount the draught excluder easily by the self adhesive tape on the backside of the product.
