PIR SOCKET SWITCH

ECOSAVERS

EcoSavers®
PIR Socket Switch

Another smart product from EcoSavers®, the PIR Socket Switch.

Connect the PIR socket switch to the mains and then plug in the device you want to switch.

When the passive infrared sensor detects movement of human body, it will switch on the device automatically. If the PIR does not detect movement anymore within 5 minutes, it will switches off the device automatically.

EcoSavers® makes saving energy and money easy !
