ECOSAVERS

EcoSavers® Daylight Sensor Lampbase Timer E

This product will help you to save energy by switching the light automatically. This prevents the light illuminates when not needed.

The Daylight Sensor Lampbase Timer has 3 modes:

- 1) Light on dusk to dawn
- 2) Light on by timer at dusk
- 3) Random timer: light turns on for irregular intervals to give the impression of activity (anti-burglar).

Power: AC 220-240V~/50Hz
Max load: 60W traditional bulb
20W CFL or LED bulb
Standby power: 0.7W
