

DRAUGHT STOP COVER

UNIVERSAL FOR DOORS AND WINDOWS

CANVAS COTTON

ECOSAVERS

EcoSavers® Draught Stop Cover

The EcoSavers® Draught Stop Cover is a universal draught stopper which can be used for door and windows. You can easily adjust the length and thickness of this door stopper by yourself.

This Draught Stop Cover can be filled yourself using old newspapers, magazines, clothes, textiles, filling materials etc. Now you can recycle waste materials and give these materials an energy saving function.

By using your own recycled materials to fill the Draught Stopper, many transport costs (size and weight) are saved and product costs are also much lower compared to ready-to-use filled d

Product advantages:

- Recycle waste materials and give them an energy saving function instead of waste disposal
- Universal: size and thickness adjustable for use at both door and windows
- Canvas cotton durable material
- Easy washable compared to filled products
- Combines energy saving with recycling
- Easy to store when not in use
