

OUTDOOR TIMESWITCH ANALOGUE

ECOSAVERS

EcoSavers® Outdoor Timeswitch Analogue

The Ecosavers Analogue Time Switch Outdoor is an analogue time switch that can switch accurately (on/off) every half hour. This time switch works with fixed pins, so you can't lose any pins. Also possibility to switch on/off manually.

Advantages:

- Suitable for outdoor use: IP44
- Excellent quality
- Fixed pins
- Adjustable per half hour
- With childproof lock
- Compact design
- Excellent price / quality ratio

This design time switch is splash-proof (IP44) and therefore suitable for outdoor use. Ideal for use with outdoor lighting, pond pump, outdoor sensors etc.
