EcoSavers® Stainless Straw

Telescopic

The EcoSavers® telescopic stainless straw is a perfect alternative for plastic straws.

Plastic waste is a big problem in the world resulting in big “plastic soups” in seas, lakes and rivers.

By using stainless reusable straws you can make a statement and show your friends you care about environment and climate.

Telescopic stainless straw with telescopic stainless cleaning brush, packed in a aluminium storage and transport container with carabina hook.

ECOSAVERS®
